SORES AND ULCER TROUBLESOME-OFFENSIVE-DANGE

Nothing is more discouraging than to have an unhealthy sore or ulcer resist one treatment after another, sometimes scabbing over and apparently getting well, then returning with renewed energy and becoming worse than before. Sores and ulcers are not due to outside causes; if they were, salves, planters, lotions, etc., would cure them. They are kept up by a diseased and polluted condition of the blood brought on by the absorption of refuse and waste matters of the body into this vital fluid. These accountiations find their way into the blood, usually because of an inactive and sluggish condition of the system. Nature intends that they shall be carried off through the usual channels of waste, but the different members failing to perform their duties properly leave the matter to sour and ferment. The blood then, in its effort to keep the system healthy, absorbs these poisons and at the first bruise, cut or wound the sore is formed, and the constant drainage of foul matter through it keeps the place open and irritated so it cannot heal. Another cause for old sores and ulcers is the pol-luting or weakening of the blood from the re-

mains of some constitutional trouble or the effects of a long spell of sickness. S. S. S. begins at the fountain-head and drives out all poisonous matter and germs, and makes a tasting cure. As soon as the system gets under the influence of S. S. S. the inflammation

gradually leaves, the flesh takes on a healthy color, and soon the place is permanently healed. Book on sores and ulcers and any medical advice without charge.

The refusal of George W. Blaker and John Schneider to testify in the Pembroke murder trial is a triumph for the congregate penal system which California maintains It proves that the two young villains have graduated into the hardened criminal class during their brief sojourn in San Quentin. They have succumbed to the evil influence of professionalism in crime, and are now part and parcel of a gigantic conspiracy, which the State fosters, against law and order and the peace of society.

Blaker and Schneider testified willingly against Pembroke before they, went to San Quentin and felt the force of criminal sentiment. Although under a life sentence for murder perpetrated in the tive standing of whisky and the beau sex in the Webfoot State. commission of robbery, there was hope for them, for they seemed to feel a sense of contrition and exhibited a desire to serve the ends of justice. They told the story of the murder and robbery of Cook freely, in court, and in other ways gave evidence of a spirit of repentance which gave hope that in time they might prove worthy of executive clemency.

A brief association with the horde of criminals in San Quentin has been sufficient, however, to show these youthful members of the great confraternity of crime the errors of their ways. They have been shown their duty by the past masters of crime in San Quentin, and to use the vernacular of their order, they done it The persuasion and coercion of an evil association in a criminal atmosphere have served to dissipate all sentiment of remorse, all sense of contrition, all respect for the opinion of decent men and women, and to convince this precious pair of their proper station in life

Henceforth they are banded irrevocably with the criminal class. They are not only the foes of justice, but they are the foes of all who aid justice. They will ever forego a personal venegance to cheat the law. They are the declared enemies of society, militantly predaceous when out of prison and bound in a confederacy of vice and crime when in confinement.

Such are the natural fruits of our congregate penal system Blaker and Schneider are products of the gang system in towns and cities, which is primarily the fault of parents who allow their boys to run about the streets at night without surveillance or check, and their final development into abandoned, hardened criminals is the fault of the State, which manages its penal institutions in a way to Record-Herald. make them vast nurseries of crime, that complete the moral ruin of youths who are mearcerated in them at the plastic age. Indignation is felt when we see redhanded murderers like Blaker and Schneider aiding an associate in crime to defeat the law, but in reality the State is to blame. These fellows are merely the finished product of its penal system, graduates from its chief seminary of passes from the congressmen.—Detroit Free Press.

According to a national report on vital statistics, the cities having the highest average death rate from tuberculosis are the cities where the climatic conditions are regarded as most favorable to the cure of consumptives. People who contract tuberculosis elsewhere go to those cities in the hope of recovering and die there. Hence the mortality tables are no guide as to the prevalence of pulmonary diseases

The Bee and Mr. Bryan.

The Sacramento Bee, which is forever guessing at the solution of riddles that do not exist because it cannot believe there is any point of view save its own, and cannot understand that all do not feel the same convictions as its gifted but erratic editor, is still unable to reconcile itself to the plain fact that Mr. Bryan is being placed on the pedestal of pure and lofty statesmanship by the men who betraved and denounced him in 1896. It will not consider the plain fact that these men are standing today for what they have script. always stood for, and that their enthusiasm for Mr. Bryan raises a question, which it undertakes to wave aside by impugning motives prints a paragraph which touches the heart of the matter. It is death.

week, of the Democratic Commercial Travelers' Anti-Trust League, A. H. Eastmand, vice-president of the Commercial Travelers, said:

"I want to make public one thing that has never been made public before. During the campaign of 1904 the traveling men's organization which I represent had headquarters with the National Democratic Committee in the Century Building, here in Thirtyfourth street. We made every effort to send out anti-trust literature and every effort we made was promptly vetoed by August Belmont | debate? and De Lancey Nicoll

"August Belmont was present, but it is not recorded that he corrected Mr. Eastmand.'

That eminent Bryanite. George Fred Williams, of Massachustts, says these Democratic "tories" are shouting for Mr. Bryan to head ried. off a still more radical reformer in Hearst. This is plausible, at least, and we believe there is much truth in it. However, Mr. Williams does not blink the facts, as does our Sacramento con- fact, I happen to know that the last missionary who came here died temporary, nor question the motives of those who allude to it. On the contrary, Mr. Williams sees in the support the old gold bug, monopoly faction of the Democratic party is giving Mr. Bryan a source of weakness. A political leader cannot entirely disassociate himself from the character and purposes of his following.

The Bee has fallen into the bad habit, whenever a reference that is displeasing to the Bee's editor is made in this paper, of asserting that it is prompted by a desire to injure Mr. Bryan in the hope of benefiting Mr. Hearst. No doubt this idea is a solace, but the comforting idea is a mere delusion. While THE TRIBUNE does not subscribe to the Bee's estimate of William R. Hearst, it has no desire to promote Mr. Hearst's Presidential aspirations at the expense of Mr. Bryan. Instead of feeling any ill will toward Mr. Bryan, we rather like him and admire a number of his qualities. This by no means implies that we believe him to be a great statesman, or that he is the strongest candidate the Democrats can nommate. He may be both, but he does not appear so to our mind.

At any rate, David R. Francis, August Belmont, William F. Vilas and Thomas F. Ryan are ardent supporters of Bryan now, whereas they bitterly opposed him in 1896.

We may believe their estimate of Mr. Bryan has changed, but in our opinion they have not changed themselves. Is Mr. Bryan what his old followers believe him to be, or is he what Belmont, Francis, Vilas, Ryan & Co., believe he is? That is a fair question. And, by the way, it is precisely the question Hearst rather pointedly suggests.

Rudolph Herold has resigned from the Hamburg-Bremen Fire Gakland Cribune Insurance Company, after being thirty-four years in its service, because the home office insisted on discounting the company's San cause the home office insisted on discounting the company's San Francisco fire losses, Mr. Herold declined to be connected with a concern able but unwilling to pay its obligations in full. His resignation is an honor to him and a discredit to the Hamburg-Bremen company. Apropos of Mr. Herold's resignation, out attention has been called to mor ethan one case where insurance companies have repudiated the adjustment after it was made by their own adjusters. Shameless effrontery could hardly go further. All companles gullty of such dishonest practices should have their methods exposed by the policyholders' association which has been organized specifically to protect the public from the imposition of rascally insurance companies and their equally rascally agents.

SOROSIS SHOES

At Kahns', galore---Every style, every size---A splendid stock ready now. Plenty for Everybody.

Over 3000 pairs just received—spent all day Sunday and yesterday checking

Perhaps most interesting of all is the wonderful variety of OXFORD TIES and PUMPS in the various leathers, such as Chrome Patent, Patent Vici, Russet and Gun Metal, in both light turn soles and welts.

We also show a beautiful line of White Canvas Shoes and Oxfords.

Our stock of Misses' and Children's Shoes is now very complete in both variety and sizes. We still have plenty of those children's good, cheap school shoes:

Sizes	5	to	8		\$1.00	pa.ir
Sizes	8½	to	1 I	***********	1.25	pair
Sizes	111/2	to	2	***************************************	1.50	pair
Sizes	$2\frac{1}{2}$	to	6	(for big girls)	2.00	pair
Sizes	21/2	to	6	(for big boys)	2 .00	pair

Do you realize that nearly seven million women in the world wear Sorosis Shoes continually? That the shoe we sell you here at Kahns' today can be duplicated in almost any of the great cities of the world? That the most fashionable women of the times are wearing the Sorosis exclusively?

Go to Boston, New York, Detroit, Chicago, St. Louis, Brooklyn, Philadelphia, Baltimore, Washington, Pittsburg, Cincinnati, Columbus, Cleveland, Omaha, Kansas City, Denver, Buffalo, St. Paul, London, Glasgow, Manchester, Edinburgh, Leeds, Sheffield, Hull, Dublin, Berlin, Hamburg, Honolulu, and dozens of other cities, tell them the number of your last, or show them the old pair that gave such satisfaction, and they'll hand you a duplicate in a second.

It's just like having your individual shoemaker-for if you wear the Sorosis you have your own individual last; you can order your last (by number) through the mail, or you can step in at any convenient Sorosis agency.

But this convenience of purchasing didn't make the success of the Sorosis. It was the style and comfort of this wonderful shoe that caused such an overwhelming demand as to necessitate the establishment of these hundreds of

How to Fool a Lazy Liver with Artificial Exercise

VERY serious Sickness has a small beginning. And, in nine cases out of

ten that small beginning is 4 made in the Bowels. Indigestion is the beginning of most

diseases. It paves the way for all others.

Lack of exercise, hasty eating, improper food, are its first causes.

Laziness, and postponement, permits it to grow into Chronic Constipation, which means life-long Discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mighty uncom-

Even slight indigestion affects the nerves, dulls the mind, and obscures the

It does that long before it puts you on the Sick list. Every thinking Doctor knows why. / . . .

Professor Rand knew it.

That's why he framed up for students his famous formula for Happiness, viz.: Trust in God, and keep your Bowels

The Bowels need adjustment from time to time, just like a clock, or a watch. 'Good time'' is humanly possible without this.

And the time to adjust the watch is not when it has run down, nor when the main spring is broken, but at the very minute adjustment is discovered necessary.

The time to adjust the Bowels is not merely when your Head Aches, when your Liver is Sick, your Stomach in Revolt, and Nature's Food Process retarded for 24 hours or longer.

The proper time to adjust them is the very minute you suspect they need adjust-

tent workmen employed.

Fight for Big Sum Over Phonograph Rights

Begun.

NEW YORK, June 27,-A remarkable law suit because of the number of defendants and the amount of money involved has just been begun in this state by the New York Phonograph Company against 940 in phonographs and their supplies in the state. Each sult is for \$10,000, making the total amount involved \$9,400,000.

The action grows out of a long standing litigation between the New York Phonograph and the National Phonograph Company representing the Edison interests. The sult is the Edison interests. brought on alleged violation of agree-ment under which the New York Phonograph Company was to have the exclusive sales rights in New York of the Edison phonographs and supplies. The New York company obtained a decision in the federal courts and is now suing dealers for purchasing supplies from the National company.

COLONEL IS RETIRED AND PROMOTED

WASHINGTON, June 27—Colonel Oswald Herbert Ernest of the corps of engineers was retired today for age, with the rank of brigadier general. Colonel Ernest is chairman of the Vississippi River Commission and a memper of the Panama Canal Commission. He is also a member of the American section of the International Waterways Commission, chairman of the board of engineers charged with surveys for a waterway between Lake Michigan and the Mississippi River by way of the Desplaines and Illinois rivers, and a member of the board to consider cement testing in the depart-ment of the interior. By presidential appointment Colone! Ernest served on

talk with the caar of Russia, in which the latter spoke highly of President Roosevelt's service in ending the war with Japan. When parting the czar said to Mr

Washburn: The president is a great man. He is a great head of a great country. Convey to him expressions of my personal regard."

BARLEY—General expectations of a bumper crop deter buyers from purchasing, as they are expecting still lower prices later on. As already mentioned, an exportable surplus of 400,000 tons is predicted by some. It is said that the percentage of brewing this year will be smaller than usual, as the late rains lodged a good deal of grain, which has become dark in consequence. The brewing demand in this city this year is, expected to be light owing to the destruction of breweries and kindred lines of the trade by the fire. The quotations for Feed continue largely nominal in the absence of trading.

Hamburg - Bremen

SAN FRANCISCO, June 27.-Ruiolph Herold, one of the oldest and best known of the Pacific Coast fire insurance men, has thrown up his hands in disgust and quit the Hamburg-Bremen Fire Insurance Company. Yesterday he turned in his resignation as general agent to Manager Buchenberger of New York and it was

decepted.

Herold was driven to sever his connections with the Hamburg-Bremen because of its actions, unwarranted to his mind, in adjusting and settling its San Francisco losses. Herold numbers his Pacific coast friends by the thousands and in thirty-four years he has spent in building up the business of the Hamburg-Bremen he won the confidence of every one. Naturally, he expected to be allowed to adjust the San Francisco losses after the great April disaster, just as he had always done after other fires.

SENT ADJUSTER. Much to Herold's surprise the Hamburg-Bremen sent out C. E. Mitchell from New York to adjust all claims, He superseded Herold in every-thing pertaining to Hamburg atfairs. Herold was unable to deal with the business friends of a lifetime, and to their complaints of bad adjusting methods he could but turn a helpless

Finally Herold sent word to the New York office of the company, asking that he be allowed to adjust all losses here. His position was not sustained Convinced that he could do nothing toward aiding his friends in securing proper settlements and satisfied that in justice to himself he could not continue as agent under the circumstances, Herold yesterday presented his resignation to the company.

HEROLD' SSTATEMENT. Speaking of his action, Herold said

spearing of his action, Herold said last night:

"The reasch for my resignation as general agent is that the company, through the United States managers at New York, and without conferring with me, placed all matters in connection with the San Francisco conflagration losses in the hands of their agency secretary at New York, C. E. Mitchell, who arrived here with full power and, together with his associates, also from the East, established an adjusting bureau at 1719 Pine street in this city. Under instructions received from the United States managers, I was compelled to refer anything and everything appertaining to these losses to the aforesaid bureau, and the decision there reached to be final. last night:

COMPLAINTS MADE.

"Being thus deprived of dealing with my friends and old-time patrons in the adjustment of their loss claims, which, under the terms of my contract formed part of my duties, and which have always been performed by me in the past, and for the further reason that many complaints were made to me by claimants because they were compelled to deal with strangers made to me by claimants because they were compelled to deal with strangers and because of the methods adopted at the adjusting bureau in the adjustment of their claims, I brought the matter to the attention of the New York office, declaring that the differences between Mr. Mitchell and nyself were irreconcilable, and requesting that one of the managers come here for the purpose of a personal investigation, as I could not consent to have matters so continue In response.
